- Appendix B - PTO/Sick Request Form
- Appendix C - Training Agreement

1. Welcome, Purpose & Employment Relationship

Welcome to MB Builders Inc.. Our goal is to perform high-quality construction work safely, professionally, efficiently, and with respect for our employees, customers, subcontractors, suppliers, and the public.

This Handbook communicates general employment practices and expectations. No handbook can address every circumstance. MB Builders Inc. may interpret, revise, suspend, or replace policies when business needs or applicable law require.

At-Will Employment

Employment with MB Builders Inc. is intended to be at will to the fullest extent permitted by applicable law. This means either the employee or MB Builders Inc. may end the employment relationship at any time, with or without advance notice or cause, subject to applicable law. No supervisor or manager may alter this relationship except through a written agreement specifically authorized by MB Builders Inc..

Open-Door Philosophy

Employees are encouraged to raise questions, concerns, payroll issues, safety concerns, or workplace problems promptly. Employees may speak with their supervisor or another member of management if the concern involves the supervisor.

2. Equal Employment Opportunity & Respectful Workplace

MB Builders Inc. provides equal employment opportunity and prohibits unlawful discrimination, harassment, and retaliation based on any status protected by applicable federal, state, or local law.

Harassment, including sexual harassment, is prohibited. Employees who experience or observe conduct they believe violates this policy should report it promptly to their supervisor or another member of management. Reports will be reviewed as promptly and impartially as reasonably possible. Retaliation for making a good-faith report or participating in an investigation is prohibited.

MB Builders Inc. will consider reasonable accommodations for qualified individuals with disabilities and for sincerely held religious practices as required by applicable law. Employees requesting an accommodation should contact management.

3. Employment Classifications & Introductory Period

- Full-time: regularly scheduled to work the company's normal full-time schedule and eligible for benefits according to applicable plan terms.
- Part-time: regularly scheduled for fewer hours than the normal full-time schedule; benefit eligibility depends on plan terms and law.
- Temporary/seasonal: hired for a limited project, season, or period.
- Nonexempt/exempt: overtime eligibility is determined under applicable wage-and-hour law and job duties, not merely job title.

90-Day Introductory Period

The first 90 calendar days of employment are an introductory period used for orientation, training, safety evaluation, attendance review, job performance, and overall fit. Successful completion does not change at-will employment or guarantee continued employment.

4. Work Schedules, Timekeeping, Pay & Overtime

Work Schedule

A normal field workday is generally eight hours, but construction schedules vary based on project requirements, weather, travel, deliveries, customer needs, deadlines, and other conditions. Start times, end times, days worked, and locations may change.

Workweek and Overtime

MB Builders Inc. encourages employees who are willing and able to work additional hours when overtime is available. Nonexempt employees will be paid overtime as required by applicable law. Employees must accurately record all time worked and may not work off the clock.

Weekly Payday

Employees are normally paid weekly on Monday for the applicable completed payroll period. If a payday is affected by a banking holiday or operational issue, MB Builders Inc. will communicate the adjusted timing. Employees should promptly report suspected payroll errors.

Timekeeping

- Record actual start, stop, and required meal-period information using the company's designated system.
- Never record time for another employee or ask another employee to record time for you.
- Report corrections promptly.
- All work performed must be recorded, even if the work was not authorized in advance, but recorded compensable time will be handled according to law.

5. Attendance & Jobsite Reporting

Reliable attendance is essential in construction because crews, lifts, equipment, deliveries, and other trades depend on coordinated staffing.

- Report to the assigned location ready to work at the scheduled time.
- If unable to report, contact the designated supervisor as soon as reasonably possible and preferably before the scheduled start time.
- Provide enough information for the company to plan staffing without disclosing unnecessary medical details.
- Repeated tardiness, avoidable absences, or leaving without authorization may result in corrective action.
- A no-call/no-show may be treated as serious misconduct. Multiple consecutive no-call/no-show days may be treated as job abandonment after management reviews the circumstances.

6. PTO, Sick Leave & Holidays

Paid Time Off (PTO) - Accrual Schedule

PTO is intended for vacation, personal business, and planned time away. Eligible full-time employees accrue PTO throughout the year based on completed service. Accrual is credited proportionally each payroll period, subject to payroll-system rounding.

Completed Service	Annual PTO Equivalent	Approx. Weekly Accrual	Maximum PTO Bank
0 through <3 years	80 hours (10 days)	1.538 hours	120 hours
3 through <6 years	120 hours (15 days)	2.308 hours	180 hours
6+ years	160 hours (20 days)	3.077 hours	240 hours

PTO generally may be used after completion of the 90-day introductory period. Employees should request planned PTO as far in advance as practical. Approval depends on staffing, project needs, previously approved leave, and other business considerations. PTO does not count as hours worked when calculating overtime unless applicable law or a written company policy requires otherwise.

Once the maximum PTO bank is reached, additional accrual pauses until the balance falls below the cap. MB Builders Inc. will administer unused PTO at separation according to the written policy in effect, applicable law, and any controlling employment or benefit agreement. The default policy is that unused accrued PTO is not paid at separation unless MB Builders Inc. expressly approves payment in writing or applicable law requires it.

Separate Paid Sick Leave

Eligible full-time employees accrue paid sick leave separately at 40 hours per year, approximately 0.769 hours per weekly payroll period, up to a maximum bank of 80 hours. Sick leave may be used for the employee's illness, injury, medical appointment, or to care for an immediate family member when reasonably necessary. MB Builders Inc. may request reasonable documentation for extended or patterned absences where permitted by law. Unused sick leave is not paid at separation unless required by law or a written plan.

Paid Holidays

Eligible full-time employees receive the following company-paid holidays, subject to the annual company calendar and eligibility rules:

- New Year's Day
- Easter observance (normally Good Friday or another company-designated workday near Easter, announced annually)
- Memorial Day
- Independence Day (July 4th)
- Labor Day
- Thanksgiving Week
- Christmas Week

If a holiday falls on a weekend or project operations require work, MB Builders Inc. will announce the observed date or applicable schedule. Holiday pay is not hours worked for overtime calculations unless required by law. Employees who work on a holiday will receive all compensation required by law and any additional holiday premium expressly announced by MB Builders Inc..

7. Benefits, Retirement & Bonuses

Health Insurance

MB Builders Inc. intends to offer eligible employees access to a group health plan after 90 days of employment, subject to insurer eligibility, enrollment windows, plan documents, and any employee premium contribution established by the company. Formal plan documents control if they conflict with this summary.

401(k) Retirement Plan

MB Builders Inc. intends to provide an eligible 401(k) retirement plan. Eligibility, enrollment dates, vesting, employer matching or contributions, investment options, and distributions are governed by the plan documents. MB Builders Inc. may establish or modify employer contributions subject to the plan and law.

Bonuses

MB Builders Inc. may award discretionary performance, project, safety, retention, holiday, or other bonuses. Unless a written bonus plan expressly states otherwise, bonuses are discretionary, may vary by employee and year, and are not guaranteed.

8. Leaves of Absence

MB Builders Inc. will provide legally required leaves and protections when applicable, including military leave, jury duty protections, and family/medical or other protected leave when eligibility requirements are met. Employees should notify management as soon as practicable when leave may be needed. Nothing in the PTO or attendance policy is intended to interfere with legally protected leave or rights.

9. Travel, Expenses & Per Diem

Overnight travel is expected to be rare but when MB Builders Inc. requires overnight travel, the company will normally arrange or reimburse reasonable lodging and approved business expenses. A project-specific per diem or meal allowance may be announced in writing before travel. Employees must follow receipt and expense-report requirements. Compensable travel time will be recorded and paid as required by applicable law.

10. Standards of Conduct

- Work safely and follow supervisor, site, customer, and controlling-contractor requirements that are lawful and consistent with safety.
- Treat coworkers, customers, subcontractors, inspectors, vendors, and the public professionally.
- No fighting, threats, intimidation, deliberate horseplay, theft, dishonesty, intentional property damage, or falsification of records.
- No possession, use, or impairment by illegal drugs or alcohol while working, operating company vehicles/equipment, or on company-controlled worksites, subject to applicable law.
- Maintain reasonable housekeeping and protect customer/company property.
- Follow lawful site access, security, photography, and confidentiality requirements.

11. Phones, Technology, Confidentiality & Social Media

Personal phones are permitted when their use does not create a safety hazard, interfere with work, violate customer/site rules, or reduce productivity. Phone use while driving or operating equipment must comply with law and company fleet rules. Supervisors may restrict personal phone use during active operations.

Employees may learn confidential business information such as bids, pricing, customer information, nonpublic financial information, passwords, project plans, and business strategies. Employees must protect legitimately confidential information. This policy is not intended to prohibit lawful discussion of wages, hours, working conditions, safety concerns, or other activity protected by law.

Employees are personally responsible for social-media activity. Do not imply that personal views are official company statements without authorization, disclose protected confidential information, or post jobsite images when prohibited by a customer or site rule. Nothing in this policy is intended to restrict legally protected concerted activity.

12. Training & Professional Development

MB Builders Inc. supports job-related training and may pay approved costs for OSHA 10/30, First Aid/CPR, equipment-operator credentials, rigging/signal-person training, welding certifications, CDL training, manufacturer training, continuing education, and other credentials that benefit the employee and company.

Training must be approved in advance. Required training time and related expenses will be handled in accordance with applicable law. For unusually expensive optional training, MB Builders Inc. may use a separate written training agreement reviewed for legal compliance before requiring any repayment.

13. Safety, Injuries & Drug/Alcohol Policy

Safety is a condition of employment. Employees must follow the Safety Manual, site-specific plans, competent-person instructions, and applicable safety rules. Employees have authority and responsibility to stop and report work they reasonably believe presents an imminent or serious hazard, without retaliation for good-faith safety reporting.

All injuries, illnesses, property damage, vehicle incidents, and near misses must be reported promptly, even if they initially appear minor.

Reasonable-Suspicion Testing

MB Builders Inc. may require drug and/or alcohol testing when trained management has reasonable suspicion, based on specific contemporaneous observations or other reliable information, that an employee may be impaired or has violated the company's substance policy. Testing, transportation, confidentiality, consequences, and any required notices will be administered under a separate compliant procedure and applicable law. Employees must not drive themselves to a testing facility when management believes impairment may be present.

14. Company Property, Tools & PPE

MB Builders Inc. primarily provides tools and required PPE. Employees may use approved personal tools or PPE when MB Builders Inc. determines they are appropriate, safe, compatible, properly maintained, and permitted by applicable law/site rules. Required PPE that the employer is legally obligated to provide will be provided at no cost, subject to lawful exceptions.

Employees must inspect tools and PPE before use, remove defective items from service, report loss/damage, and return company property when requested or at separation. Normal wear is expected. Intentional damage, misuse, or theft may result in corrective action and lawful recovery efforts.

15. Performance, Corrective Action & Complaints

MB Builders Inc. may use coaching, verbal counseling, written warnings, suspension, reassignment, final warning, or termination depending on the circumstances. The company is not required to use progressive discipline or follow steps in a particular order.

Employees should report workplace concerns promptly. If the concern involves the employee's supervisor, the employee should contact another member of management. Good-faith complaints regarding safety, discrimination, harassment, wages, or other protected matters will not result in unlawful retaliation.

16. Separation of Employment

Employees who resign are encouraged to provide at least two weeks' notice when practical. At separation, employees must return company vehicles, keys, fuel cards, tools, PPE, electronics, documents, access credentials, and other company property. Final wages will be paid in accordance with applicable law and company payroll practices. Benefit continuation or conversion rights, if any, are governed by applicable plans and law.

17. Policy Administration

MB Builders Inc. may revise this Handbook prospectively. Material changes will be communicated by reasonable means. If a handbook provision conflicts with applicable law or a controlling benefit plan, the law or plan document governs and the remaining provisions continue to apply.

Appendix A - Employee Handbook Acknowledgment

I acknowledge that I received the MB Builders Inc. Employee Handbook. I understand that I am responsible for reading and following applicable policies and asking questions when I do not understand them. I understand that the Handbook is not an employment contract and does not alter the at-will employment relationship to the extent permitted by law. I understand that policies may be revised.
